Biography

The founder of Theracords has an incredible impressive resume. He is known for his significant unique style and a positive energetic attitude. There is no other artist that provides such amount of energy on stage, which is something you have to witness yourself to believe it.

His performances have taken him to Canada, Australia, Russia, Spain, Chili, USA, Czech, France and even Ukraine. Known as a huge supporter for more diversity, Dj Thera played sets ranging from hardtrance, early hardstyle towards raw hardstyle and industrial hardcore. In Holland, Germany and Belgium he pretty much played at every big event, such as Hard Bass, Defqon 1, Decibel, Emporium, Intents Festival, Q-Base, The Qontinent and Daydream Festival.

After the big success of his extremely diverse album Training Sessions, Dj Thera wanted to focus on developing a new signature style. Combining the best of atmospheric melodies with raw kicks resulted in The New Era of Hardstyle. which he continued perfectly in his latest releases 'Hyperspace' and his collab with Luminite 'Failure of Democracy'.

In January Dj Thera announced his new album "The New Era", which was premiered at Qapital & Q-base. It turned out to be a great succes!
